## Construction News: When Will The New Holes Be Open?

*By Denny Perry*

This is the proverbial question that has plagued me since the first holes opened in 2003. For the first time ever I am able to give a little more definitive of an answer.

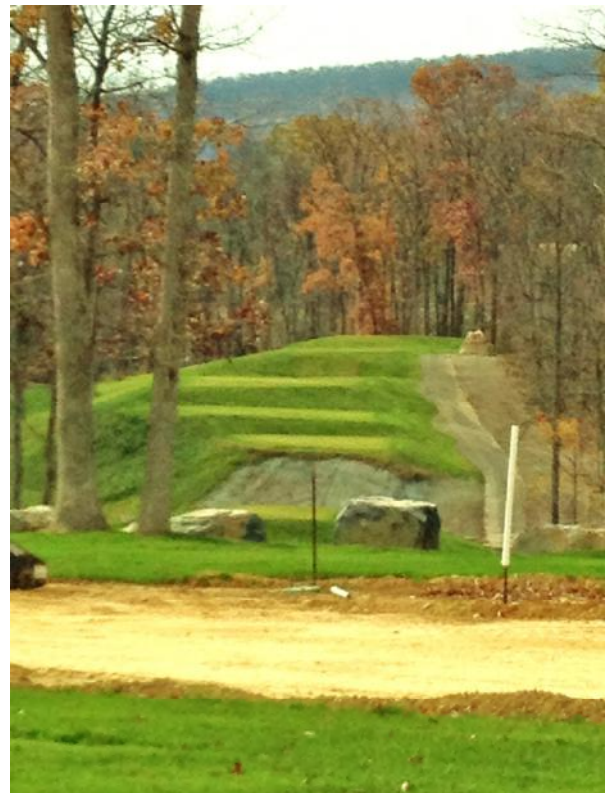

The last three fairways have been sod planted so they are finished and ready for play in the Spring. Most of the roughs have been Hydro Seeded and should be ready some time in the spring. All the tees have been seeded except No. 8, Boulder, they have all been shaped and are

ready to seed but we felt it was best to wait until Spring to complete the seeding.

The remaining four greens (No. 6 Boulder has 2 greens) have been seeded and even mowed a few times.

The opening date for these new holes is all depended on the greens. Bobby Jenkins, Rock Harbor Superintendent, believes that all will be ready no later than the first day of Summer, 2015.

So, to date, that has been the best answer I can give anyone on opening the new holes for play. And as always we are at the mercy of Mother Nature to be kind with the rain and sunshine to speed the process along.
