Employee Profile: Jon Rife

Starting September 1, you will be seeing a new face around the Rock Harbor Pro Shop. Jon Rife, your new Head Professional. Jon comes to us from Greenville SC. Although he has lived and worked in 14 different states. He has over 30 years of working in the golf world but a lifetime of experience just being on the course.

Jon was born and raised in the mid-western US, but moved to Michigan with his family and attended the University of Michigan. While growing up in the mid-west his family lived across the highway from a golf course. His pull to the course and the game was so strong that at the age of 5 he began crawling through the culvert under the road to get to the course. Eventually the course allowed him to start “working” at the age of 9 to earn a free membership. He has worked at golf courses his entire life in every position available to him. When he started thinking about going to the University of Michigan he thought he wanted to be a course superintendent but one thing led to another, as life often does, and he ended up with a golf scholarship and he changed his plans to be a Professional Golfer.

As you begin to see Jon and get to know him, here are some talking points to help you connect: Ask Jon about his 16-week old English Golden Retriever. This is his baby. Ask him about his collection of hot peppers that he brought with him from SC and transplanted at his new home. He also loves to cook—ask him what he’s cooking for dinner.

Jon is a teaching Pro and this is what he really loves to do —teach and also help people with merchandise. Making sure you get the right gear to help you succeed in your game. Jon is looking to build relationship, friendships and be a part of a community. He is new to the area so suggestions and invitations are greatly welcomed. Extend the hand of friendship and introduce yourself to Jon.

Welcome to our new Members!
