Fresh From The Grill

Beau Rudiger,
RH Grill Manager:

Dear Members,
July has certainly
flown by, and it has been a
hot one!

We had a fantastic
Member-Member Tournament
for 2026. Despite a little
rain on Saturday afternoon,
Sunday turned out to be a
beautiful day. I hope
everyone enjoyed both the
golf and the food. We also
hope everyone had a
wonderful 4th of July
celebrating America's 250th
birthday with family and
fireworks. We had a great
turnout for our 4th of July
member event, and despite
the less-than-ideal weather,

we were glad to successfully
complete the tournament.

Additionally, I would
like to address some
questions regarding recent
pricing changes. Please note
that we have not
implemented a general price
increase in 15 months.
However, effective July 1st,
the local meal tax increased
from 4% to 6%, which is the
change you are seeing
reflected in your bills. This
tax update was widely
advertised on the local news
prior to taking effect.

Finally, as a
reminder, **please**
remember that members
are obligated to close out
their open checks before

leaving the course. I'm not
going to search for charges
on any unsigned check
closed at the end of
business hours that day.
This will eliminate any
charges you didn't make and
if you happen to have the
wrong bill we can fix it
before you leave the
course. You will be held
responsible, so please close
out your checks. If you do
not close them out, I **will**
probably be forced to
insert a service charge on
all open checks at the end
of the day.

Thank you for your
continued support.

The Green

Chris Dieter, Course Superintendent:

What an interesting season we are having. Less
rain than most of us can remember, along with a few
days of record high temperatures. During these times
it takes over 500,000 gallons of water to irrigate the
golf course just enough to keep the grass alive. We
have also been watering all the new trees on a weekly
basis, approximately 200+ trees.

When it comes to the flowerbeds this year, we made a
significant discovery. Trico Pro keeps the deer from eating
the plants in our flowerbeds. I do not believe we have had
the daylilies bloom so well in the last 8
years. The deer usually eat the daylily
flowers like they are candy.

Trico Pro is made from sheep fat
and does not have a disgusting smell.
When sprayed at full concentration it is

supposed to last six months. The spray application does not
have to be on the plants but all around them. If you sprayed
it on your lawn, the deer will not enter your yard, so
the claims go. Check out all the

As a last item, remember
all 4 wheels on the path
at tees and greens, and
repair your ball marks
and divots plus someone
else's.
